5 March 2018

Dear Valued Customer,

This is just a brief letter to confirm that Feinschmecker (Pty) Ltd is an independently owned & operated business that has nothing to do with the companies currently implicated in listeria findings released by the Department of Health on Sunday 4<sup>th</sup> of March.

Companies involved are also not raw material suppliers of Feinschmecker (Pty) Ltd.

Since the outbreak started in December 2017 we have on a weekly basis had the department of health visit our facility & collect samples for testing.

We also on a continued basis use independent laboratories to test for listeria.

Our product is food safe but we realise this is an ongoing situation & we will continue to test.

Thanks for your support, please do not hesitate to contact me with any queries.

Kind Regards,

Alistair Hayward

Director
